

Window Seats

Dear SAS Honors Program Students,

Natural light is such a beautiful thing. As I sit by the window at the Mabel Smith Library on Cook/Doug, I can't help but think of how important having a 3/32" pane of glass next to me is. Perhaps the other spacey-types can agree with this, but as far back as I can remember, the window seat has been a top priority. On flights, train rides, car rides, and even in the way I orient my study space, having the option to look to my left or right and zone out ironically helps me stay focused. The takeaway here: stop reading this, go sit by a window, then open it up again. See how much better it is?

Look into the glass in front of you for some of our upcoming events/announcements. Got the COVID-19 travel bug? Check out the **Spring 2022 Honors Global Experiences**. Learn about this year's **Daniel Gorenstein Memorial Award** recipient, **Dr. Mark Gregory Robson** at an upcoming award lecture. Celebrate your recent or upcoming graduation by attending one or all events from the **Class of 2020 and 2021 Celebrations**.

Warm Regards,
